Devery and His Trusted Wardman Glennon Fled to Saratoga When Exposure Came and Deputy Refuses to Talk.

Edgar A. Whitney, the man, trapped and arrested by the Parkhurst Society, has made a t complete confession of the relations existing between the Police Department and the Mahoney pool-room combine.

OFFICIALS!

After he had sworn to his statement Justice Jerome and Assistant District-Attorney Schurman went into the District-Attorney's office, and there, it is reported, several warrants were issued for I various John Does concerned in the blackmail conspiracy.

According to Whitney, the much-wanted "John Doe" is none other than Edward Glennon, formerly wardman for Deputy Commissioner Devery and now wardman and virtual captain of the West Thirtieth street station.

Glennon, says Whitney, is the go-between of the big men in the Police Department and the poolroom men and other violators of | the law.

Since morning, when Police Headquarters began to hum with rumors of things to come, it had been feared by police officials that Whitney would "squeal." They know Whitney. When they saw the statement of Frank Moss in The Evening World that "if Glennon knows his own interests he will help us," they make a confession.

At 1 o'clock Whitney sent by Tombs/messenger's communication to and he went to Ireland until "things" in the special state of the Indicated July Justice Jerome. After a long wait he quieted down.
